DNA HYA
FACIAL CLEANSER

Rejuvenation and Moisturizing Foam

For Sensitive Skin

ROCK THE WORLD

by Facial Foam with

SALMON DNA that helps make
your skin clean, keeps it firm,
and boosts skin's regeneration

S MONE' DNA HYA Facial Cleanser

The facial cleanser has an updated formula which contains Salmon DNA extracted from salmon sperm as Active ingredients, **it accelerates the process of restoring damaged skin cells to give your skin youthful and glow.** And it has HYA that helps stimulate collagen production, **keeps the skin firm, and increases skin moisture.** The texture of the foam contains softness and elasticity.

Due to the fine textured foam, it reduces skin friction after touching the face. It also **can remove impurities from the face thoroughly and gently.**

Active ingredients' Properties

HydroSella

Wild Rosella extract provides moisture to the skin, helping the skin to be moisturized and look healthier.

Godaemi Rice Extract (tri-colored rice)

Consists of red, green and black. It has high Anti-Oxidant content. It helps reduces premature wrinkles, makes skin look firm. It makes skin look younger, reduces dullness and reveals brighter skin.

Superox-c af

Extracted from Kakadu Plum fruit that is high in vitamin C and is rich in antioxidants that helps brighten the skin and reduces dark spots to look faded and even skin tones.

Alpaflor Edelweiss

Edelweiss extract helps fight free radicals, protects the skin from pollution, slows down skin deterioration, helps reduce wrinkles, increases the skin's protective barrier to be strong.

Sodium Hyaluronate

Hyaluronic acid helps increase moisture under the skin cells, reducing wrinkles, aging lines, and dryness caused by lack of nourishment.

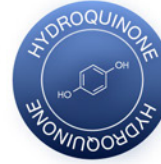

OLIVEM 400-DRUM PLASTIC

Natural cleanser is gentle on sensitive and easily irritated skin. It also helps protect the skin's moisture, so you can feel that your skin is soft and moist after washing your face

Free from 5 types of harmful substances
